

IRS Increases ACA Affordability Percentage for 2021

By Ashley Dillingham, J.D.

BRSi Compliance & HR Manager

The IRS recently [announced](#) the ACA affordability percentage for 2021, increasing the percentage from 9.78% to 9.83%. The affordability percentage only pertains to “Applicable Large Employers” (ALEs) who have, on average, at least 50 full-time employees or “full-time equivalents” (FTEs).

For plan years beginning in 2021, the coverage an employer offers to an employee will be considered *affordable* if the employee’s monthly contribution does not exceed **9.83%** of:

- The amount reported in Box 1 of the employee’s W-2, divided by 12 (W-2 Safe Harbor);
- The employee’s monthly wages, based on 130 hours per month (Rate of Pay Safe Harbor); or
- The [federal poverty line](#) (FPL) for a single individual, divided by 12 (Federal Poverty Line Safe Harbor).*

**The Federal Poverty Line Safe Harbor is calculated using the FPL as of 6 months prior to the beginning of the plan year because the FPL is not published until January of each year.*

**An employer may use different safe harbors for different categories of employees but must do so on a reasonable and consistent basis.*

Your BRSi Advisor will review your plan’s affordability for the 2021 plan year and assist you in developing a strategy for compliance.

If you have any questions regarding the new ACA affordability percentage, please contact me at adillingham@benefitreview.com.
